

Name: _____

Date: _____

Fact Family Triangles to 10

Use the three numbers to write two addition and two subtraction facts.

1.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

2.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

3.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

4.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

5.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

6.

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Fact Family Triangles to 10 (Answer Key)

Use the three numbers to write two addition and two subtraction facts.

1.

$$\begin{array}{l} 1 + 4 = 5 \\ 4 + 1 = 5 \\ 5 - 1 = 4 \\ 5 - 4 = 1 \end{array}$$

2.

$$\begin{array}{l} 4 + 5 = 9 \\ 5 + 4 = 9 \\ 9 - 4 = 5 \\ 9 - 5 = 4 \end{array}$$

3.

$$\begin{array}{l} 5 + 1 = 6 \\ 1 + 5 = 6 \\ 6 - 5 = 1 \\ 6 - 1 = 5 \end{array}$$

4.

$$\begin{array}{l} 1 + 7 = 8 \\ 7 + 1 = 8 \\ 8 - 1 = 7 \\ 8 - 7 = 1 \end{array}$$

5.

$$\begin{array}{l} 3 + 2 = 5 \\ 2 + 3 = 5 \\ 5 - 3 = 2 \\ 5 - 2 = 3 \end{array}$$

6.

$$\begin{array}{l} 7 + 3 = 10 \\ 3 + 7 = 10 \\ 10 - 7 = 3 \\ 10 - 3 = 7 \end{array}$$
