

Our Chore Wheel

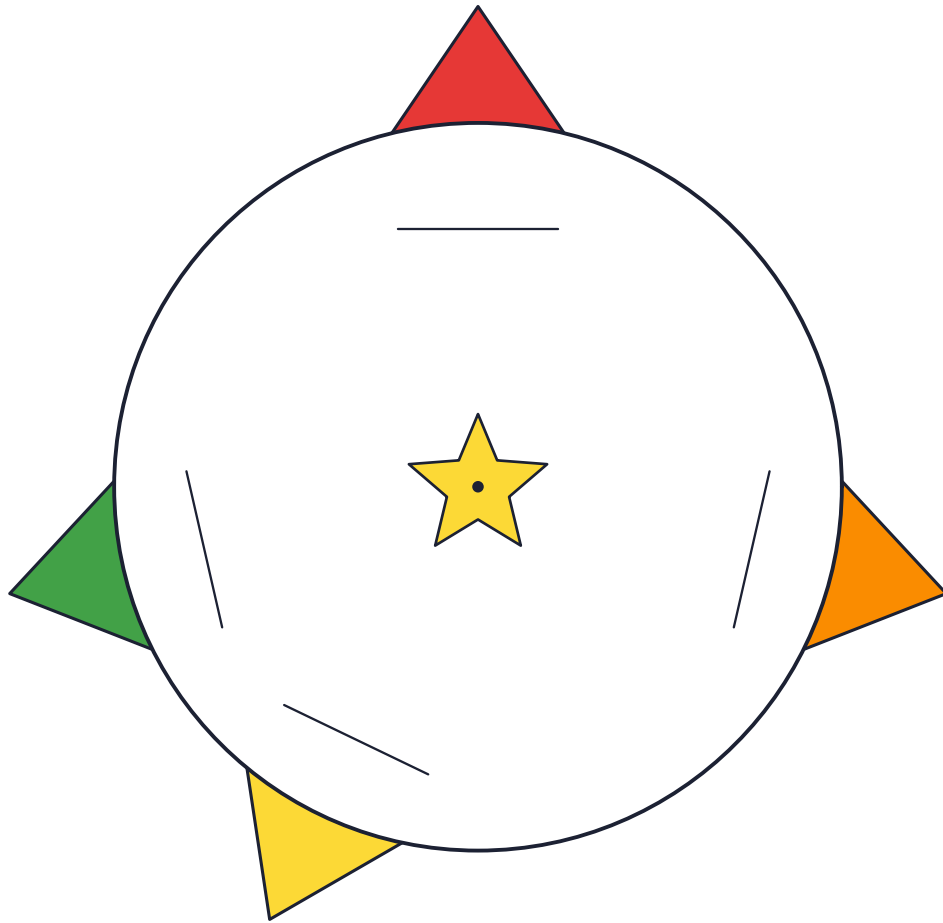

Chore ring (bottom). Cut along the outer circle.

Turn the name wheel one notch each week, so everyone takes a turn at every job.

Name wheel (top)

Cut out the circle and the pointers in one piece.

1. Cut out the chore ring and the name wheel. Card stock lasts longer.
2. Lay the name wheel on top and push a split pin (brad) through both centres.
3. Each pointer shows a job. Do it, then turn the top wheel one notch next week.
