

Name _____

Date _____

Make 100

Ten pairs of numbers that add up to 100

$10 + 90 = 100$

$20 + 80 = 100$

$30 + 70 = 100$

$40 + 60 = 100$

$50 + 50 = 100$

$5 + 95 = 100$

$15 + 85 = 100$

$25 + 75 = 100$

$35 + 65 = 100$

$45 + 55 = 100$

Think in tens: 100 is 10 tens. If you have 4 tens, you need 6 more tens, so $40 + 60 = 100$.
For $35 + ? = 100$, make 35 into 40 first (add 5), then add 60: $5 + 60 = 65$.

Test yourself

$60 + ? = 100$ _____

$25 + ? = 100$ _____

$85 + ? = 100$ _____

$30 + ? = 100$ _____

$45 + ? = 100$ _____

$95 + ? = 100$ _____

Answers: 40, 75, 15, 70, 55, 5
