Life Cycle of a Sea Turtle

Follow the arrows to see how a sea turtle grows and changes.

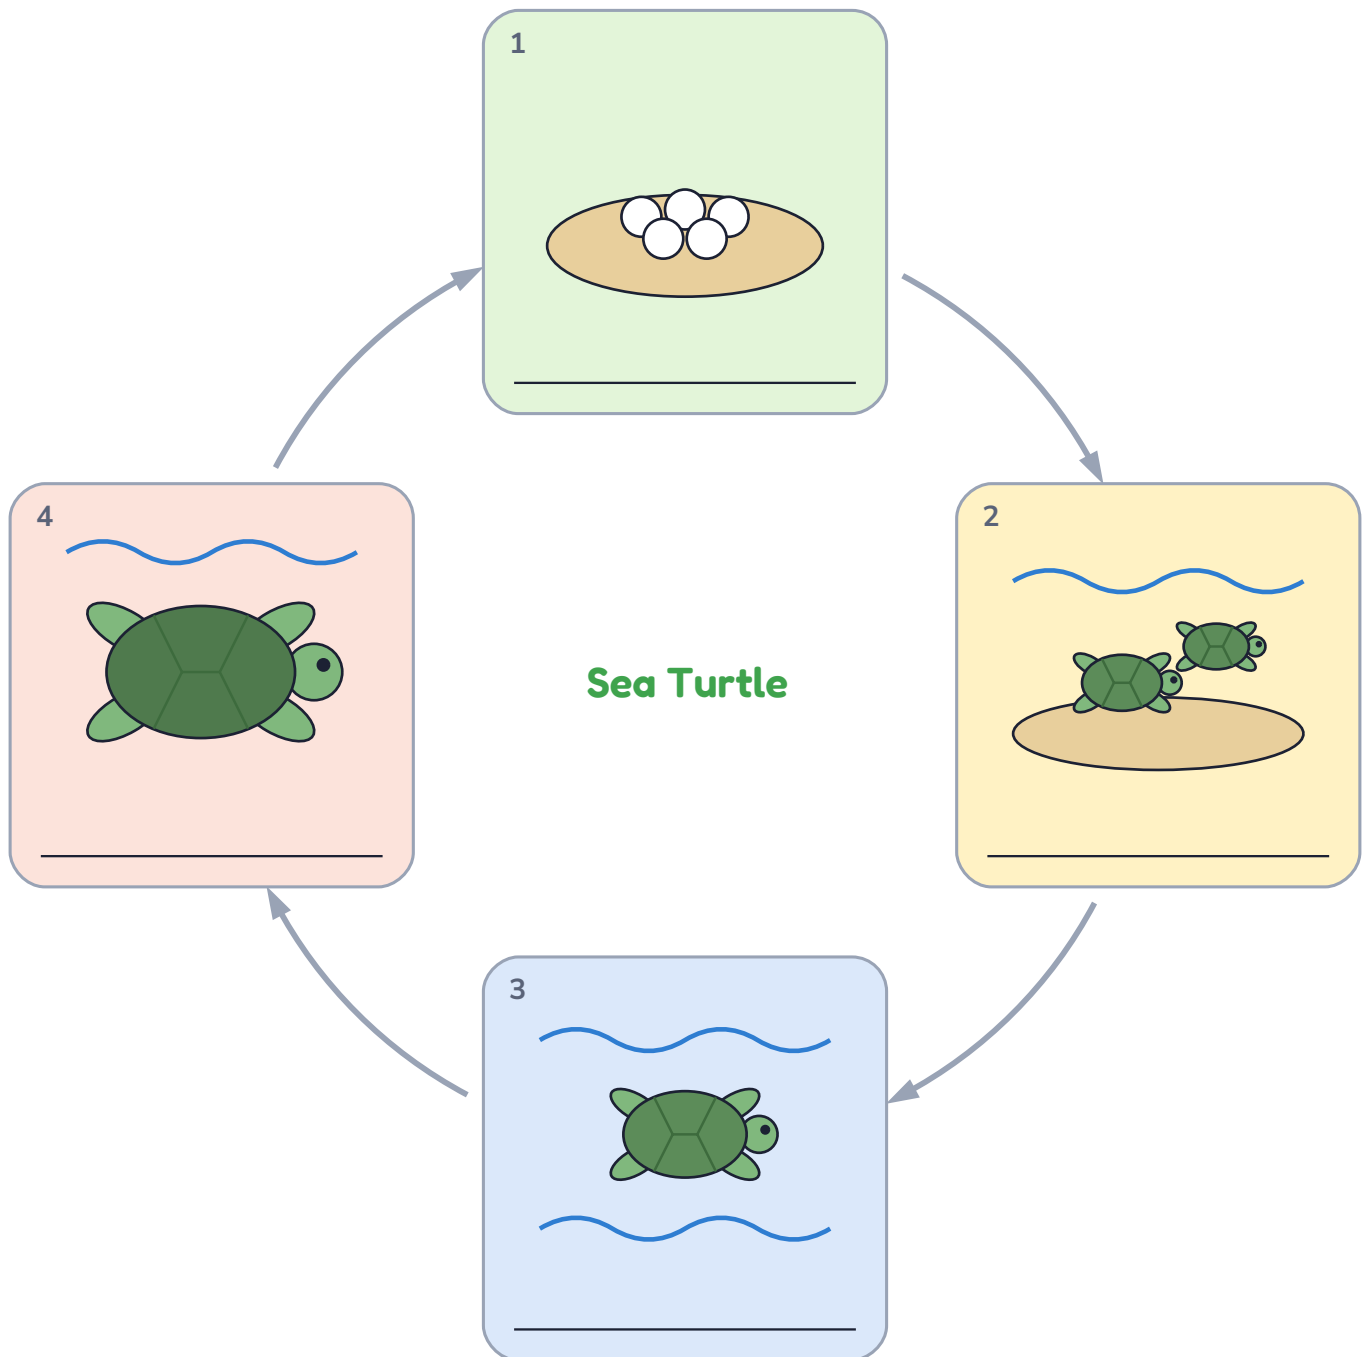

1. Eggs: A mother turtle digs a nest in the sand and lays her eggs.
2. Hatchling: Tiny hatchlings dig out and race to the sea.
3. Young turtle: The young turtle swims and grows in the ocean for years.
4. Adult turtle: Grown females come back to the beach to lay eggs.

Name: _____

Date: _____

Label the Life Cycle of a Sea Turtle

Write the name of each stage. Use the word bank.

Word bank

Hatchling

Adult turtle

Young turtle

Eggs

Date: _____

Cut out the pictures at the bottom. Glue them in order from 1 to 4.

A horizontal sequence of four rounded rectangular boxes, each with a dashed border. The boxes are labeled 1, 2, 3, and 4 from left to right. Arrows point from the right side of box 1 to box 2, from box 2 to box 3, and from box 3 to box 4, indicating a sequential process.

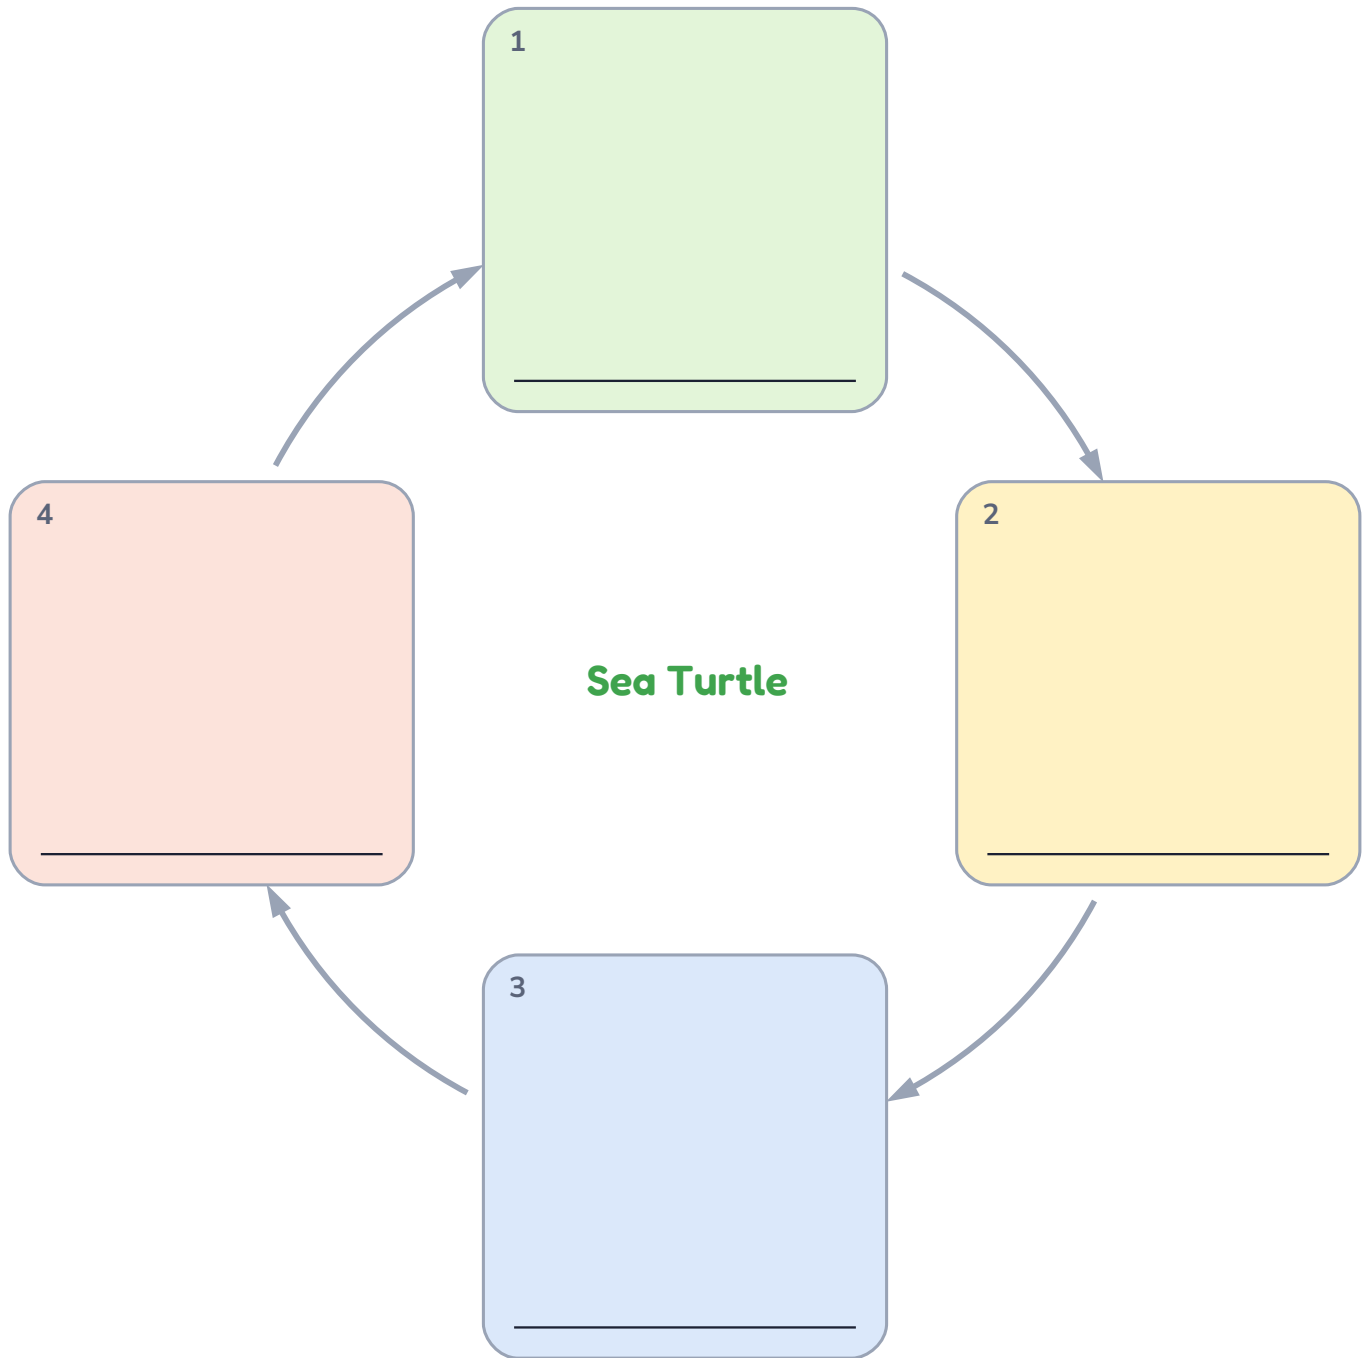

Write the name of each stage on the lines.

Name: _____

Date: _____

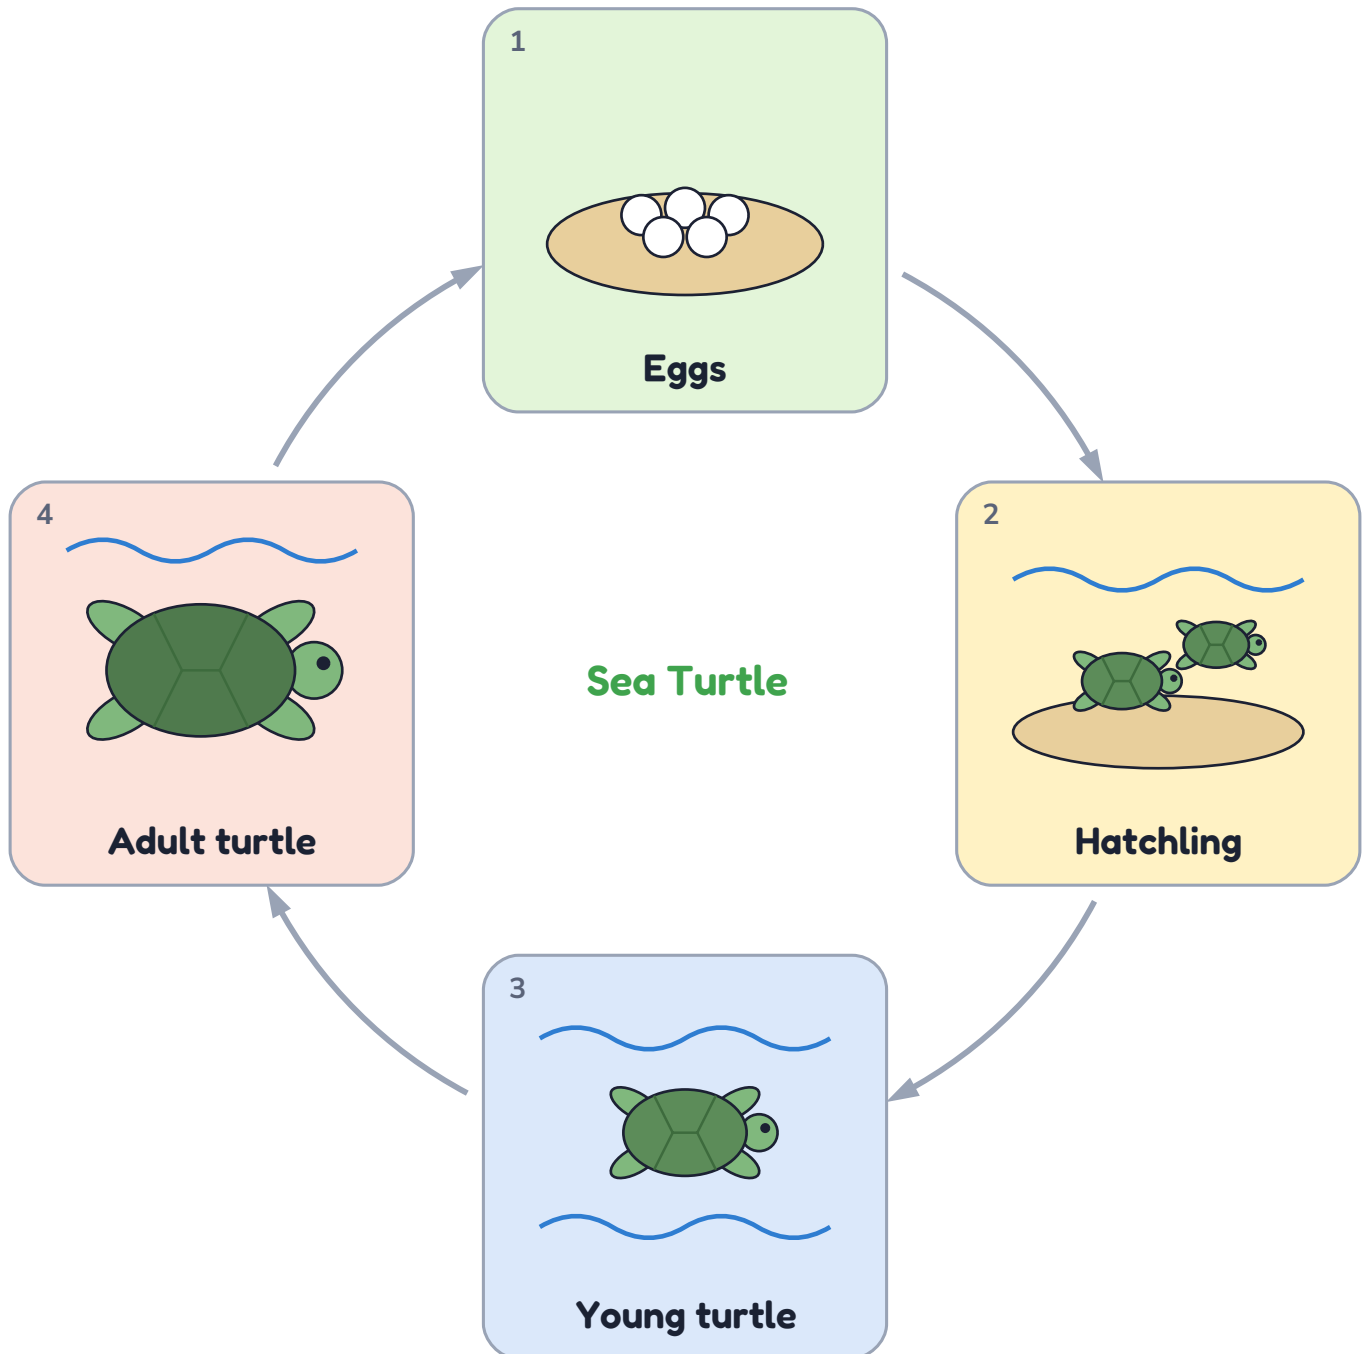

Draw the Life Cycle of a Sea Turtle

Draw and label each stage in order.
